

DANSAC ADHESIVE **REMOVER**

Dansac Accessories

Dansac Adhesive Remover

Quick and easy removal of appliance

The Dansac Adhesive Remover promotes quick and painless removal of stoma appliances.

Because the Dansac Adhesive Remover is a silicone based alcohol-free solution it will not sting, even on sore skin. It dissolves excess adhesive facilitating fast and easy removal of the pouch.

Dansac Adhesive Remover is available in single and easy-to-use wipes and as a 50 ml spray.

The products can be used separately or in combination: use the spray to remove the barrier and a wipe for any leftover residue. The wipes are discreet and practical to bring along in a bag or pocket.

DANSAC ADHESIVE **REMOVER**
